Printer/ Ink Compatibility

Océ PM35 is recommended for use with pigment and dye inks. For a complete compatibility chart on our website go to: www.oceusa.com/imagingsupplies

Color Profiles

ICC color profiles will improve image quality and optimize ink limits for improved dry-time, wider color gamut and more accurate

color matching. ICC profiles are available from the Océ website: www.oceusa.com/imagingsupplies.

Finishing Recommendations

Océ PM35 can be overlaminated with both thermal and pressure sensitive laminates. Make sure that prints are completely dry prior to laminating. Cold pressure-sensitive adhesives are recommended for mounting.

This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to use the suitability of the material for the specific purpose.
