Clear Film for Screen Positives Aqueous Inkjet Media

Product Description

Océ Pro-Select® PSCFLM2 is specifically designed to create images for screen positives and negatives. This update coating formula has a lowered DMIN, reduced curl, and improved dot gain. The microporous design provides quick dry, and water resistance when using pigment inks. Universal compatibility on Epson, Canon®, HP® and Océ photo and proofing printers.

Specifications

Pro-Select® inkjet media for professionals

Product Description PSCFLM

Important Printer and driver settings need careful set up to ensure the best performance. Appropriate ink loads must be set for the ink/printer combination being used.

Color Profiles ICC Color profiles will improve image quality and optimize ink limits for improved drytime, wider color gamut, and more accurate color matching.
