Printer Ink Compatibility

Can be used on all commercial thermal and piezo water-based printing systems including: Epson® and Canon® Hewlett Packard® Kodak® and Encad® printers.

Handling Recommendations

Due to the absorptive nature of the coating, you should avoid touching the coated surface. It is always recommended that cotton gloves be worn when handling ink jet coated materials. Rolls are supplied coated side out.

Laminating

Can be overlaminated with either hot or cold laminates. Make sure that prints are completely dry prior to laminating.

Pro-Select® inkjet media for professionals

Printer and driver settings need careful set up to ensure the best performance. Appropriate ink loads must be set for the ink/printer being used. This information is presented as a general guide and is not a performance guarantee. The user should independently determine prior to the use the suitability of the material for the specific purpose.
