

Océ Specifications

PMPLUS7 - Océ Matte Photopaper

Product Description 7 mil (190 gsm) smooth matte photopaper. PMPLUS7 has a specially designed coating that provides exceptional performance with dye and pigment ink on thermal inkjet printers. The smooth matte surface accepts a high inkload without cockling, resulting in fast dry times, wide color gamut, smooth gradient blends when printed with an Océ custom profile.

Physical Properties	Caliper: 7 mil nominal	Basis Weight:	190 gsm
	Opacity: 95%	Brightness:	92
	Whiteness: 105	Gloss(60°):	12

Features Smooth Matte Finish, Exceptional performance with pigment ink on thermal inkjet

Available Sizes Sample roll: 24" x 10'
Rolls 100': 24", 36", 42", 44", 50", 54", 60"

Recommended Storage Conditions & Shelf Life Temperature 68°-77°F. (20°-25°C). Relative Humidity 30-70%.
Repack opened rolls when not in use.
One year at conditions noted above.
Allow material to stabilize to room conditions 24 hours before use.

Environmental, Health & Safety No Material Safety Data Sheet required. Waste not suited for recycling.

Main Applications Display Graphics, Photographs and Photorealistic Applications, Indoor Retail Applications

Finishing Tips Compatible with both thermal and pressure sensitive lamination.

Printer Ink/Compatibility Océ PMPLUS7 is recommended for use with dye and pigment ink in most of today's thermal inkjet printers. Check for a complete compatibility chart on our website: www.oceusa.com/imagingsupplies

Color Profiles ICC Color profiles will improve image quality and optimize ink limits for improved drytime, wider color gamut, and more accurate color matching. Océ Imaging Supplies provides free profiles for the most common inkjet printer and RIP combinations:
ICC profiles are available from the Océ web site:
